

My home has been so much more peaceful since the no call list went into affect and believe me I need peaceful as I have two small children. First what disturbs me is why does someone think they have the right to call me and solicit me. I can put a sign on my front door telling them "No Solicitations" and they will not ring. If I cant stop people from calling me and bugging me to buy stuff than what's next. I have never.... I mean never bought or gave money to anyone from an incoming call and this will never change. If the Do Not Call List is done away with I WILL cancel my land based phone line for good, as will most of the people I have talked to. Since a cell phone incurs a charge for incoming calls all cell phone solicitations will be illegal because I would have to pay for it. Do not throw out the Do Not Call List.... Its my right to privacy at stake!!! Gregg
